

DCBCPS

Fall Reading Program

As part of our curriculum, we encourage families to read together for atleast 30 minutes a day. Each block below represents 10 minutes of reading. As you read with your child, please help them to color in one block for every 10 minutes you spend reading together.

When all the blocks are colored in, please return it to the classroom teacher and start a new one.

Students will be given incentives for the number of minutes turned into their teacher. Their progress will be posted for all to see. At the conclusion of the reading program for this semester, the student in each class with the most minutes read will be recognized.

Let's see how many minutes we can read individually, as a class and as a school this fall! Our goal is 100,000 minutes!

Student's Name: _____

											100
											100
											100
